Sajjad Esmaeel Niya

Full-Stack Developer

About Me

I'm a curious and creative Full Stack Developer with a passion for both code and design. With hands-on experience in Python, PHP, JavaScript, and front-end technologies, I bring both functionality and aesthetics into everything I build. My background spans from UI/UX design, digital art, and photography to machine learning, automation, and Linux scripting. Whether crafting intuitive web experiences, designing elegant visuals, or building smart tools like Telegram bots , I thrive at the intersection of technology and creativity.

My Skills

Programming: Python, PHP, JavaScript, HTML5, CSS3, Bash, SQL, MySQL

Other: WordPress, GSAP, Selenium, React, Django, Flask, REST APIs, Tensorflow, Selenium, Git, Linux Shell, Web scraping, Automation, Telegram Bots, Image Recognition, Text Recognition & Processing, scikit-learn, OpenCV, pandas, numpy tensorflow, UI/UX, Responsive Web Design, Adobe Photoshop, Logo Design , Illustrator, GIMP, Web Design, Digital Art, Photography, Framing, Color Theory, Composition, etc.
